

# MACHINING TABLE

For assembly fittings between particle boards

● Mechanical engineering

● Realizations

○ Cabling

○ Machines

table dedicated to the machining of cavities receiving the assembly fittings between worktops.  
This large series operation is integrated into a robotic cell ensuring the loading and unloading of the panels.  
The marble is equipped with 2 3kW spindles digitized along 2 Y/Z axes.  
Measuring devices allow the work reference to be recalibrated on the marble.  
A localized suction allows the evacuation of shavings.

FEATURES: :

- 2 Broches 3kW cône HSK-C50
- Course Y 180mm / Z 100mm
- panneaux min : 150X150mm

Reference : 3651

Project added the 17/12/24
